The Society of Chemical Industry was founded in England in 1881 for the advancement of the study and practice of Applied Chemistry, and the diffusion of information upon all matters connected with the Chemical Industries. The well-known *Journal* of the Society is issued in London twice a month.

RIFLE TEAM AT PRINCETON.

Princetown has recently entered a new field of sport by the organization of a rifle team. The team has been admitted to the National Rifle Association of America.

ATHLETIC NOTES.

Interscholastic Meet, Spring Meet, Baseball.

The baseball game between 1907 and Medford High, is scheduled for Thursday.

The baseball game between the Sophomore Team and Newton High, scheduled for yesterday afternoon, was postponed on account of the bad weather.

Mr. Ellery H. Clark, formerly of Harvard A. A. and at present a prominent member of the B. A. A., will be invited to officiate as referee at the M. I. T. Annual Spring Games, to be held April 22, '05.

There has also been an attempt made to get other men who have been prominent athletes as officials at the games.

The M. I. T. A. A. will hold the Boston Interscholastic Track Athletic Meet at Tech Field, May 27, '05.

All of the schools of Boston will probably compete in this Meet, which will hereafter be held annually somewhere in Boston.

The Athletic Association at the Institute will undoubtedly be in a way benefited by holding this Meet, as it may be the means of bringing in good track material from the High Schools.

PRIZE DRILL.

The Annual Prize Drill will be held at the Armory this afternoon. Assembly will sound at 2 P.M., sharp, and it is necessary that every member of the Battalion be present at that time.

All members of the Corporation, the Faculty and the Instructing Staff, are invited to attend the drill, and are requested to present their cards to the ushers, so that they may be shown to the reserved section.

The Judges are Col. Oakes, 5th Mass. Inf.; Lieut. Portal, 1st Mass. Heavy Artillery; and Lieut. Stewart, 6th Mass. Inf.

All persons other than the members of the Corporation, the Faculty, the Instructing Staff, and the Battalion, will be admitted only on presentation of tickets, which can be procured of the Battalion Officers, or at the Cage.

UNDERWOOD'S Original
DEVILED HAM

When you strike off into the woods, see that in your pack basket or in the bow of your canoe you have a sufficient supply of Underwood's Original Deviled Ham. A small can and a couple of slices of bread, or, better still, cold toasted bread (toast should be buttered after it has become cold), make a satisfying and delightful lunch. In camp it is always indispensable, either for emergencies or the regular table.
It may be bought at any good grocer's, but be sure you see on the can THE LITTLE RED DEVIL. There is only ONE Deviled Ham—*Underwood's Red Devil Brand.* All others are imitations, but imitations in name only, as the goods commonly labeled and sold as potted or deviled ham, made as they are from the odds and ends of the packing house, are no more like *Underwood's Original Ham* than chalk is like cheese.
Our Book contains a lot of unique and practical receipts. We will send it FREE.

opinion that the example will be followed by Amherst and Wesleyan.

Several Northwestern University co-eds living in Pearson's hall, Evanston, had a ride in a patrol wagon recently. The ride was given them by Policeman Keefe, driver of the wagon, as a reward for the assistance they gave the fireman at a small blaze at the residence of George Burham, 528 Cook Street. The fire, in the centre of the student district, attracted the girls to the street. They cheered on the men and the blaze was extinguished in a few minutes.

The authorities of the University of Pennsylvania will introduce into the curriculum, beginning Oct. 1, 1905, a course in public health. This innovation looks toward filling a constantly growing demand throughout the country for officials specially trained in matters pertaining to public health. The course will include instructions under the following headings: sanitary engineering, sanitary legislation, inspection of meet, milk, etc., social and vital statistics in the United States, general hygiene and personal hygiene.
